

*All the key items
in one kit.*

Unique, disposable Intubation Kit for Endotracheal Anaesthetics

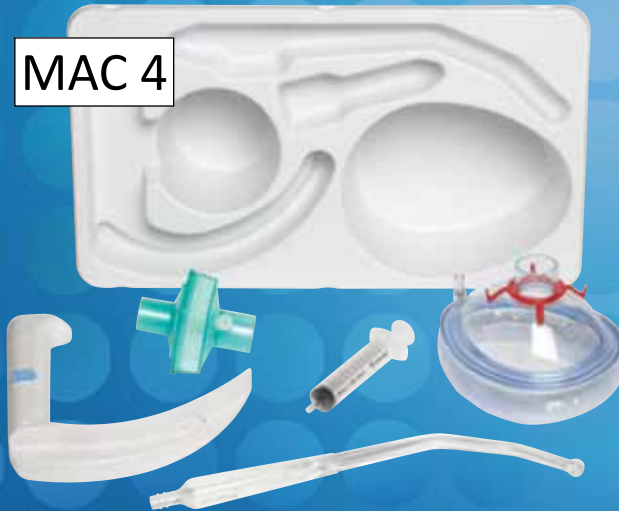

- Support products presented together for easy use
- Contained in an intubation tray

AA Yeescop™

MAC 3

MAC 4

The Intubation Kit is ideal for Anaesthetic Assistants. No more time wasting sourcing items from any number of shelves and then having to open them individually and place them separately on a tray.

With the Intubation Kit, everything that is needed is conveniently laid out. The only thing an assistant needs to do is add the endotracheal tube to suit the patient and operation.

The kit can also be used in Intensive Care Units, Emergency Departments and the remote anaesthetic environment.

Features:

- Special moulded tray
- Key items for Endotracheal Anaesthetics
- Convenient and time saving
- Choice of two adult sizes

MAC 3 Kit contains:

- MAC 3 Yeescope™ + medium adult face mask
- Microbial filter
- Cuff syringe
- Yankauer sucker

MAC 4 Kit contains:

- MAC 4 Yeescope™ + large adult face mask
- Microbial filter
- Cuff syringe
- Yankauer sucker

Order Codes:
